Become an Expert in a High Demand Advanced Manufacturing Field!

Join the AZNext Additive Manufacturing Program!

AZNext is pleased to offer the **Additive Manufacturing Program**. The program consists of 5 online modules including readings and exercises. These sessions can be timed flexibly to accommodate working student schedules.

Completing the online course will lead to a certificate that you can share with prospective employers within your network!

Program Layout:

The program consists of the following five sub courses:

- Introduction to Additive Manufacturing Processes.
- Material Extrusion.
- Manufacturing Jetting and Stereolithography.
- Selective Laser Sintering and Metal Laser Powder Bed Fusion.
- Design and Additive Manufacturing.

Participants will contextualize what they are learning through relevant data decisions based on examples in the advanced manufacturing environment.

Technologists and Technicians?

Technologist and Technicians are classified as “Bright Outlook occupations” from the Bureau of Labor Statistics website

<https://www.bls.gov/opub/mlr/2015/book-review/smart-machines-and-the-future-us-workforce.htm> which is officially defined as the occupations to be expected to grow rapidly in the next several years with large numbers of job openings.

Fast Facts

Median Salary: \$61,210 (U.S.)
Job Growth: Estimated 25% or Higher
